

# AIOps

Experience superior performance and application availability using EuVantage, a state-of-the-art SaaS based AIOps platform

IT infrastructure monitoring is a critical part in this digital era. Companies use monitoring tools to get visibility into the full IT stack, including networks, cloud, servers and more. However, as organization adapt to the latest technologies and the ongoing digital transformation, they need more than a dedicated IT team and IT Monitoring tools to manage and monitor the complex IT infrastructure.

This is where AIOps comes into picture. AIOps is the mix of AI with IT operations. By combining AIOps with IT infrastructure monitoring, companies can get a 360-degree visibility into infrastructure performance, proactively identify defects and threats and resolve them before they escalate into emergencies.

Anunta's patented SaaS-based AIOps platform, EuVantage®, simplifies the management and delivery of virtualized desktops and applications, whether hosted on private or public cloud, allowing your IT team to focus on other key strategic initiatives. EuVantage takes care of the end-to-end ownership of IT operations and infrastructure monitoring including troubleshooting day-to-day end user issues, monitoring and management of IT infrastructure (desktops, laptops, mobiles, tablets, network, server, telecom, peripherals).

## EuVantage®

Patented SaaS based AIOps platform that enhances business productivity by proactive identification of end user performance issues and resolution there by ensuring 99.98% application availability.

### EuVantage Provides:

Automated discovery of application delivery components

On-demand, end-user-centric view of the application delivery infrastructure

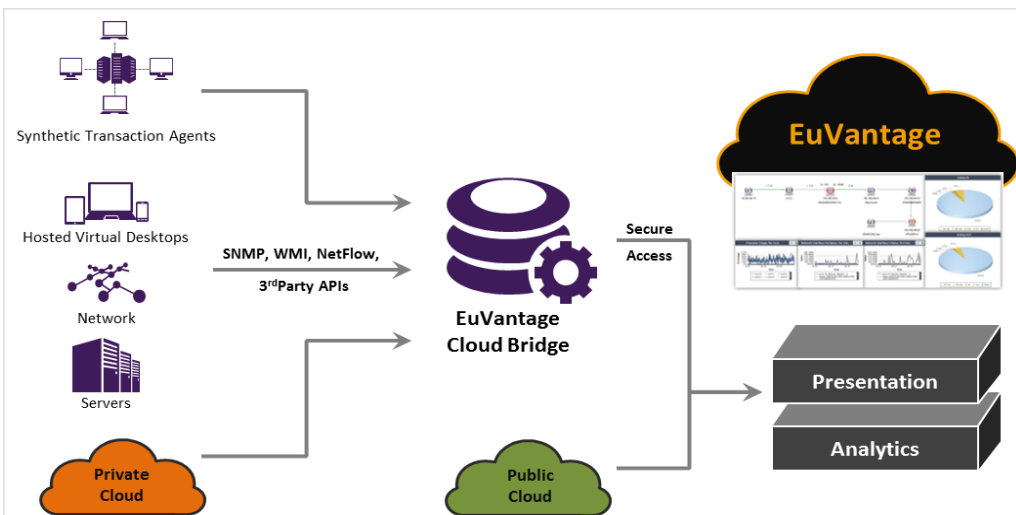

Adaptive analytics and smart dashboards for actionable insights

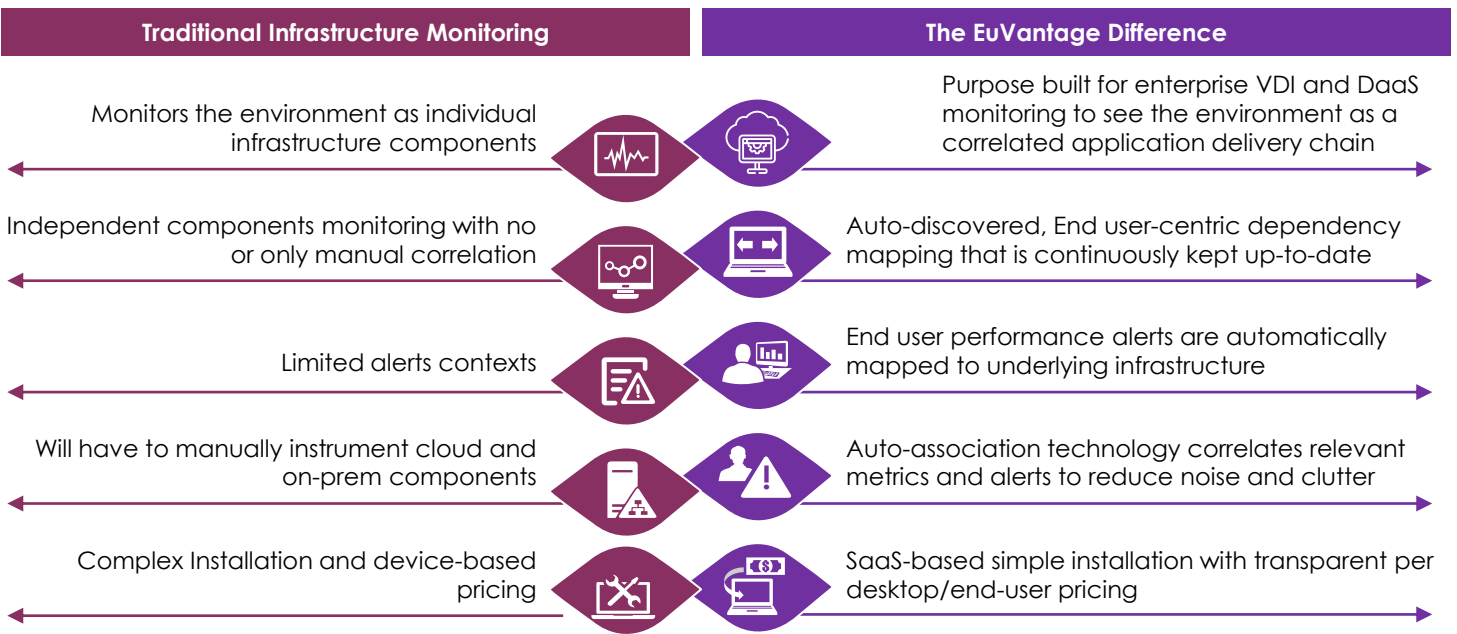

Actionable reports for proactive management

## EuVantage – Built for Managing EUC Environments

- High degree of automation across the many moving parts of the Infrastructure
- Simple and Intuitive workflows
- Scalable, extendable and programmable platform
- Intrinsically multi-tenant with strong data integrity and security
- Natively designed to handle hybrid cloud environments

## AI Ops – The EuVantage difference

## Benefits

**40%** increase in issues resolved by help desk

**60%** Reduction in alarms
