

Onboarding

Setting up a cloud-based desktop environment and integrating it with the existing infrastructure and network involves a number of micro configurations which needs to be managed with accuracy in order to deliver a seamless end-user experience. Any gap in executing this can lead to teething issues that can impact both end-user experience and productivity and negatively affect the successful delivery of virtual desktops.

Anunta's Onboarding ensures end-to-end management of workload transition to cloud and are executed by acknowledged experts in cloud and virtualization technologies. The Onboarding include, design & implementation, active directory configuration, image creation and application configuration, end-to-end technical testing and migration.

Anunta enables its customers by significantly bringing down the Onboarding transition time of end-users and accelerating benefits realization of the new environment thereby creating a superior end-user experience.

Delivering Unmatched End-User Experience

Managing over **200,000+** users globally and across different virtualization platforms.

Delivering the lowest incident-to-user ratios in the industry at **0.3** compared to industry average of **0.8 - 1.2*** incidents per user per month

Highly secure **24x7x365** Enterprise Nerve Center monitoring and managing IT infrastructure to deliver superior end-user experience.

*Gartner report 'IT Key Metrics Data 2017'

Outcome and productivity-oriented SLAs, along with flexible engagement (on-premise and cloud) and pricing (per user per month and per endpoint per month) models.

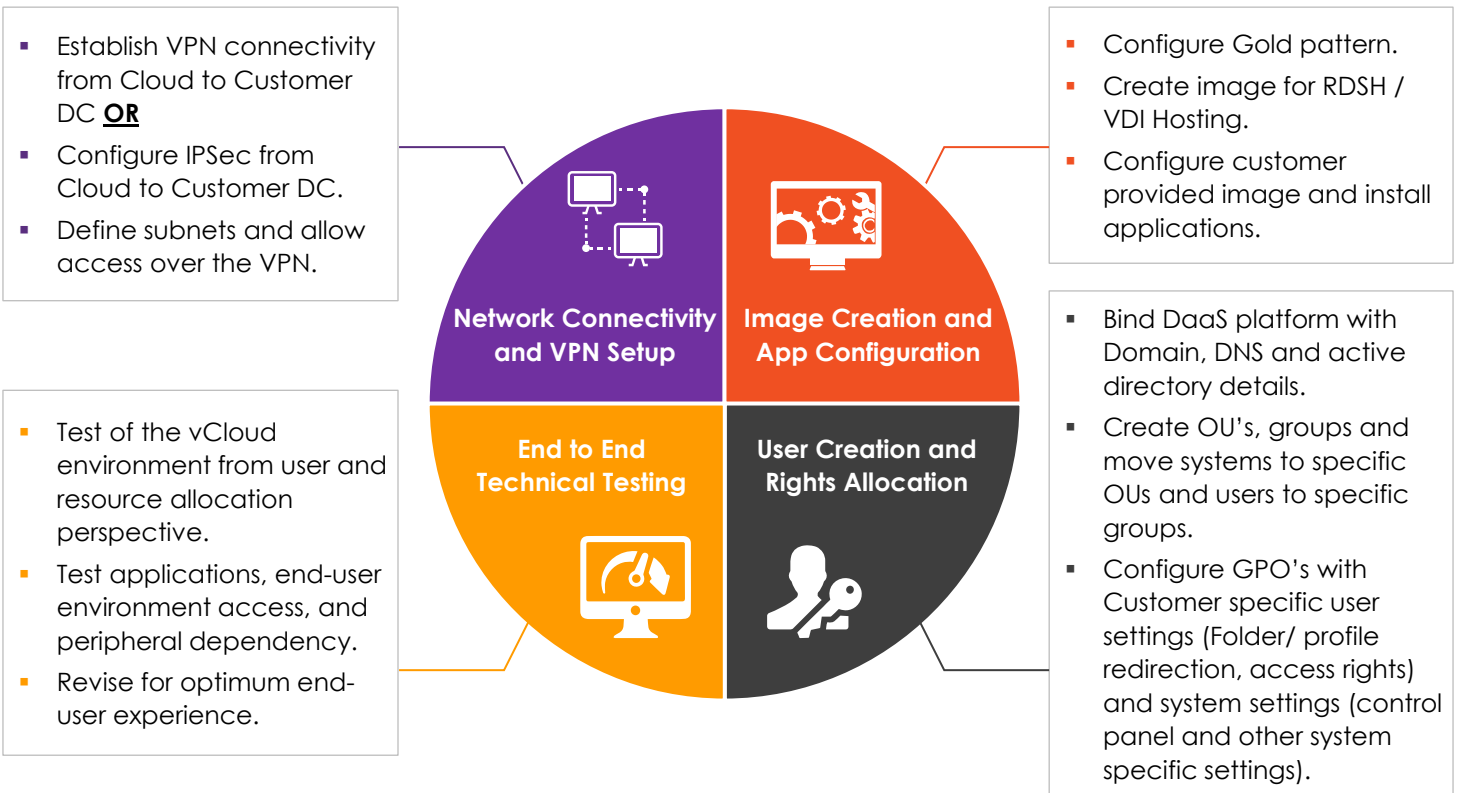

Proactive identification and resolution of **76%** issues before the end-users are even aware of it resulting in improved end-user productivity.

Patented AI Ops platform, EuVantage®, providing deep cross-domain visibility, automated isolation, actionable analytics and dramatically reduced resolution times.

Onboarding

About Anunta

Anunta is an industry-recognized Managed Desktop as a Service provider focused on Enterprise DaaS, Packaged DaaS, and Digital Workspace technology. We have successfully migrated 500,000+ remote desktop users to the cloud for enhanced workforce productivity and superior end-user experience.
