

DesktopReady, The Modern Desktop as a Service

The SMB landscape has changed. Many businesses are quickly adopting cloud based technology to remotely manage their IT. With Gartner estimating, Desktop as a Service (DaaS) is expected to reach more than 50% of annual spending on remote client computing by 2023, the "Remote First" world provides service providers an opportunity to expand their customer base and add new cloud-based services. Most organizations, especially SMBs are now looking for turnkey DaaS solutions that can run with lean or zero in-house IT.

DesktopReady

DesktopReady™ is a fully functional Windows 10 based cloud desktop, built on the inherently secure and high performing Azure® platform. DesktopReady requires no upfront capital expenditure or separate set up costs. DesktopReady offers built-in automation and monitoring that delivers scalable cloud desktops for lower Total Cost of Ownership (TCO).

DesktopReady for MSPs

DesktopReady offers MSPs a robust DaaS platform to build upon, accelerating time to market while maintaining customer touch.

- Multiple desktop options
- Burstable CPU and RAM capacity
- Bandwidth included
- Standard set of applications
- Business hours support (8AM to 8PM ET)
- 10% discount on annual plans, billed monthly

Benefits

Cost Efficient

DesktopReady reduces the Total Cost of Ownership (TCO) of desktop virtualization by 50% vs. traditional methods that includes higher cost for hardware, implementation, and support.

Fully Managed

A fully managed desktop solution that takes away the pain of design, implementation, and management of virtual desktops, while delivering to you a fully secure functional desktop on any cloud of your choice.

Simple and Scalable

Easy to deploy in minutes with self-service options for change requests and dynamic scalability. Dynamically add new users when you need without any specialized IT intervention.

Superior End-User Experience

The application delivery model eliminates brownouts and downtimes ensuring application availability of 99.98%. The industry lowest incident to user ratio of less than 0.3 ensures uninterrupted system time for end-users, resulting in improved end-user satisfaction and productivity.

Highly Secure Desktop

The desktop is compliant to all security and regulatory standards and offers an enterprise grade security, wherein all your data and applications are fully secured on cloud.

24x7 Helpdesk and Support

The fully managed desktop offers a comprehensive Helpdesk that is available 24x7 and Single point of accountability for all end-user performance issues.

About DesktopReady

DesktopReady is a modern fully managed Desktop as a Service (DaaS) with built-in automation and monitoring that simplifies the delivery and management of cloud desktops for the unique needs of companies that want to spend less time on IT. Developed using Windows Virtual Desktop (WVD) infrastructure within the Microsoft Azure cloud, DesktopReady provides fully functional Windows 10 desktops that are easy to install, configure and ready within minutes. The highly secure cloud desktops are built on platforms that are PCI, HIPAA and SOC2 compliant and supported by 24/7 service desk and infrastructure monitoring.
