

The Growing Pains of Virtual Desktop Management

Why Business Leaders Are Taking Notice

Tired of Virtual Desktop Headaches?

Let's be honest, managing virtual desktops isn't always a walk in the park.

According to recent research from Digital Workplace Insights **2024**:

- **73%** of IT leaders are practically blind when it comes to their virtual desktop infrastructure.
- **45%** of users experience regular performance issues, leading to frustration and lost productivity.
- And let's not even talk about those slow response times – the average MTTR for virtual desktop incidents is a whopping **4.8** hours.

Sound familiar?

Experience the EuVantage® difference. Anunta Tech's innovative solution for all your virtual desktop challenges.

Immediate Business Impact

- 70%** reduction in Mean Time to Resolution (MTTR)
- 60%** decrease in false-positive alerts
- 40%** reduction in tooling costs through consolidation
- 45%** improvement in first-call resolution rates

What Makes EuVantage® Special

Predicts Problems Before They Happen

EuVantage® automatically maps out your entire virtual desktop setup and constantly monitors it.

Works With What You've Got

Whether you're using Citrix, VMware, or Microsoft AVD, EuVantage® seamlessly integrates.

Connects the Dots

EuVantage® doesn't just monitor one thing at a time. It looks at your entire network, servers, and desktops together to get a complete picture of what's happening.

Looking Back at the Data

With EuVantage®, you can easily pull historical reports, making it simple to spot trends, plan for future capacity, and manage your infrastructure budget.

What Users Think

Want to know what your users think about their remote desktop experience? Our CSAT module makes it simple to collect feedback and identify areas for improvements.

Easy on Your Budget

No need for huge upfront investments, meaning you only pay for what you use, on a per-user, per-month basis.

The ROI That Matters to Executives

- **Save money:** See a 35% reduction in your overall IT operational costs.
- **Fix problems faster:** Resolve issues 50% quicker, minimizing downtime and frustration.
- **Happy users, happy business:** Boost end-user satisfaction scores by 40%.
- **Quick return on investment:** Typically see a return on your investment in just 3 months.

Why EuVantage® Matters Now More Than Ever

Remote work is here to stay. That means your virtual desktop environment isn't just a nice-to-have, it's a critical part of your business.

EuVantage® gives you the tools to manage it effectively, with proactive monitoring, a complete view of your system, and a proven track record of delivering a strong return on investment.
