

Smart Endpoint Management Starts with Anunta

Anunta | Microsoft Intune | Omnisca Workspace ONE UEM | Digital Employee Experience (DEX)

Build a Secure, Intelligent, and Experience-Driven Digital Workplace

1

Today's enterprise leaders must balance cloud transformation, hybrid work, cybersecurity, rising employee expectations, and IT cost control.

Anunta unifies these priorities through an integrated workplace transformation framework that combines Microsoft Azure, Omnisca Workspace ONE Unified Endpoint Management (UEM), and Digital Employee Experience (DEX) to deliver secure, resilient, high-performing digital workplaces.

The Enterprise Challenge

2

Complex hybrid IT environments

Growing endpoint diversity

Increasing cybersecurity and compliance demands

Limited visibility into digital employee experience

Rising operational costs and IT overhead

Disconnected management tools are slowing transformation and limiting value.

Anunta's Integrated Transformation Framework

3

Microsoft Intune

Simplify endpoint management across diverse devices, platforms, and work environments while reducing risk and supporting business continuity.

Anunta Delivers

Consulting and implementation

Cross-platform support

Zero-trust security

Endpoint Privilege management

Application management

Omnisca Workspace ONE UEM

Securely manage Windows, macOS, iOS, Android, Linux, rugged devices, and virtual endpoints with a cloud-native Unified Endpoint Management platform that centralizes policy enforcement, automates provisioning, manages application lifecycles, monitors compliance, and supports Zero Trust security.

Anunta Delivers

Consulting and implementation

UEM migration and modernization

Endpoint provisioning and lifecycle management

Security policy configuration

Compliance and governance management

24x7 managed endpoint services

Digital Employee Experience (DEX)

Monitor digital workplace health in real time, proactively identify experience issues, reduce service desk dependency, and improve workforce productivity through continuous experience intelligence.

Anunta Delivers

Experience monitoring

Digital workplace analytics

Experience score optimization

Continuous service improvement

Proactive issue detection and remediation

Business Outcomes for Enterprise Leaders

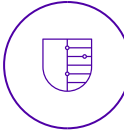

4

Simplified IT operations

Lower total cost of ownership

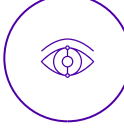

Stronger security and regulatory compliance

Improved employee productivity & digital experience

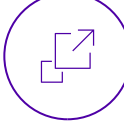

Faster cloud and workplace transformation

Greater endpoint visibility and governance

Higher operational resilience

Scalable foundation for future growth

Why Enterprises Choose Anunta?

5

Anunta helps global enterprises design, deploy, manage, secure, and continuously optimize modern digital workplaces to deliver stronger business outcomes.

With deep expertise across Azure, Omnisca Workspace ONE, End User Computing, Virtual Desktop Infrastructure, Digital Employee Experience, and Managed Services, Anunta helps organizations turn fragmented IT environments into intelligent, secure, and experience-led digital workplaces.

From Strategy to Managed Operations
