

The Cloud Revolution

What's Really Happening?

Beyond the Cloud

The Data Realignment of 2025

Remember when "cloud first" was the only direction? 2025 is rewriting that story.

02 Edge Computing Emerges

- 78% of enterprises expanding edge computing deployments
- Projected to reduce latency by up to 40% and cut bandwidth costs by 35%²

04 Cloud Cost Control

- Cloud spend optimization becoming critical
- 55% of companies reporting cloud cost overruns in 2024
- Estimated \$39.5⁴ billion in unnecessary cloud spending

01 Data Sovereignty Reigns

- 62%¹ of enterprises are repatriating cloud workloads back on-premises

03 Hybrid Optimization is Key

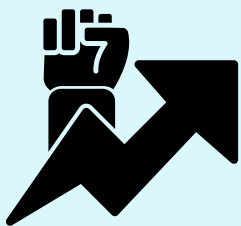

- 73% of organizations adopting hybrid IT strategies
- Average cost savings of 27%³ through strategic workload placement

05 Security Beyond the Perimeter

- Zero Trust adoption increased to 85%⁵ across enterprises
- 67% apply Zero Trust on-premises
- 92% reduction in successful breach attempts

Anunta Empowers

Seamless Hybrid Transitions

Proven methodology with 94% client transition success rate

Reduced migration complexity by 60%⁶

Compliance Assurance

Supporting compliance across 12+⁸ international regulatory frameworks

100% compliance maintenance for financial and healthcare clients

>>>

02

>>>

Optimized On-Premises Infrastructure

45% average data center performance boost.

Energy efficiency gains of up to 38%⁷

03

Data Migration Expertise

99.97%⁸ data integrity maintained during migrations

Zero critical data loss incidents in 2024-2025

<<<

04

Strategic Insight

It's not "cloud or on-premises" anymore. It's "where does my data thrive?"

Are you making the most of your cloud investment to drive data-driven success? Our experts are ready to help you explore the best option.
