Modernize Your Workspace. Enhance Productivity with Enterprise DaaS

Empower your workforce with secure,
on-demand virtual desktops – anywhere, anytime.

Traditional workspaces present numerous challenges, often impeding efficiency and productivity.

Complex IT Management

Managing a large number of desktops across various locations is complex and time-consuming, detracting from core business objectives and hampering operational efficiency.

Limited Scalability

Scaling up traditional desktop infrastructures to accommodate business growth can be slow, costly, and inefficient, limiting organizational agility.

Security Risks

Physical desktops and decentralized management increase vulnerability to security breaches and data loss, posing significant risks to sensitive information.

High Maintenance Costs

Maintaining traditional desktop environments requires significant IT resources and support, driving up costs and diverting attention from strategic initiatives.

Introducing Anunta's Fully Managed Enterprise DaaS Solutions

Enterprise DaaS is a fully managed custom-built DaaS solution that provides on-demand virtual desktops hosted on any public cloud or private on-premises infrastructure using VDI. The virtual desktops can be accessed from any remote location with enterprise-grade security. You have the option to pick and choose services that include full life cycle provision from design to support.

Enjoy full lifecycle support, from design to implementation to Day 2 support.

Support your large, geographically diverse enterprise and distributed workforces.

Host virtual desktops on the cloud platform of your choice: public, private, or hybrid.

Choose the virtualization platforms that suit your business goals.

Pick and choose services aligned to your specific business needs.

Built to be deployed seamlessly across industries and business units.

Use Cases

Anywhere Work

Enabling Field Agents

Effortless Collaboration

Swift Desktop and PC Refresh

Seamless Contact Center Operations

Device Diversity Through BYOD

The Anunta Advantage

Unlock Mobility
Access virtual desktops flexibly and seamlessly anytime, anywhere.

Supercharge Productivity
Enhance user productivity with a consistent computing experience.

Fortify Security
Implement advanced security measures to ensure data integrity and compliance.

Optimize Your IT Spend
Maximize your IT budget efficiently with our pay-as-you-go model.

Success Story

Anunta builds a reliable and secure IT infrastructure for a multinational energy and utility company to leverage limitless security and backup options, while ensuring cost optimization and great employee experience.

Challenges

- Limited scaling opportunities
- Limited in-built back-up options
- Limited third-party integration options
- Fixed infrastructure costs

Solution

- An end-to-end transformation of IT infrastructure by migrating the existing infra to Horizon Cloud on Azure.

Benefits

- 47% increase in user base in 6 months
- Consistent uptime of 99.99% leading to seamless access to applications
- Reduction in user incident ratio from 0.12 to 0.07, leading to 50% in employee productivity
- 35% savings on capex for IT teams
