

Simplify and Streamline Your Desktop Infrastructure

With Anunta's Modern Desktop Management Solutions

Managing a mix of devices and operating systems often leads to:

Security Gaps

Unpatched vulnerabilities and weak password policies leave your data vulnerable.

Slow Performance

Outdated software and inefficient configurations lead to sluggish systems and frustrated employees.

IT Burden

Manual updates, configuration changes, and troubleshooting eat up valuable IT resources.

Introducing the Power of Modern Desktop Management

The future of work starts with modern desktops.

Anunta's Modern Desktop Management solutions empower you to take control of your desktop infrastructure by offering a unified platform to:

- 01 Enable seamless BYOD adoption while upholding stringent security measures, regulatory compliance, and optimal productivity.
- 02 Ensure efficient updates and streamlined operations with centralized deployment and updates of software applications.
- 03 Efficiently oversee the health and performance of remote desktops through advanced monitoring.
- 04 Take a proactive approach to remotely resolve hardware and software issues swiftly and effectively.
- 05 Generate comprehensive reports that provide valuable support in showcasing adherence to regulatory compliance.
- 06 Offer user-friendly service portals for streamlined software installations, updates, and assistance request management.

Use Cases

Remote management of desktops and laptops

Secure, seamless BYOD implementation

Zero trust security through strict access controls

Automated device setup and configuration

The Anunta Advantage

End-to-end management of desktops

100% asset compliance

Asset onboarding time of 24 hours

24/7/365 expert customer support

Success Story

A leading national bank modernizes and digitizes their asset management across 200 branches and 11 states.

Challenges

- Manual software and application updates.
- Resource intensive and restrictive IT architecture.
- Lack of stringent Customer data protection and regulatory compliance.

Solution

- End-to-end modern desktop management project for the client leveraging Workspace ONE, a comprehensive digital workspace platform from VMware.

Benefits

- 35% savings on capex for IT teams.
- 50% increase in end user productivity.
- 99.98% application availability.
- 100% asset compliance.
- Secure role-based privileged access.
