Modernize Your Workspace with Packaged DaaS

Seamless, secure, and cost-efficient Packaged DaaS solutions for managed workspaces.

Traditional workspaces present numerous challenges, often impeding efficiency and productivity.

Manual IT Management

Manually managing numerous desktops across various locations is labor-intensive and time-consuming, reducing the focus on strategic business goals.

Security Vulnerabilities

Decentralized management and physical desktops increase the risk of security breaches and data loss, putting sensitive information at risk.

Scaling Difficulties

Expanding traditional desktop infrastructures to meet business needs can be slow, costly, and inefficient, limiting organizational growth and flexibility.

High Operational Costs

Maintaining traditional desktop environments requires significant IT resources and support, driving up costs and diverting attention from key initiatives.

Introducing Anunta's Fully Off-the-Shelf Managed DaaS Offering

Anunta's Packaged DaaS provides secure pre-configured virtual desktops hosted on a public cloud and is easy to deploy and use. It is a comprehensive Windows 10/11-based cloud desktop that is built on regulatory-compliant platforms. Our Packaged DaaS requires minimal IT intervention to initiate, deploy, and manage.

- » Simplify your virtual infrastructure with a fully off-the-shelf packaged offering.

- » Enjoy full lifecycle support, from design to implementation to Day 2 support.

- » Scale and modify your environment dynamically with self-service options.
