anunta®

Measure Remote Workforce Success with Managed DaaS/VDI

99.9% Uptime

That's the reliability Anunta's Desktop-as-a-Service (DaaS) delivers, ensuring your team can work anytime, anywhere without interruptions. With advanced security protecting your data and ensuring compliance, your business stays safe and efficient. A consistent, seamless desktop experience keeps your employees productive, while our pay-as you-go model helps you control costs and maximize IT efficiency.

Maximizing VDI/DaaS Efficiency | Balancing Cost, Complexity & Performance

User Experience
- Consistent and lag-free desktop experience across devices and major virtualization technologies.

Automated – Intelligent DaaS
- Provides abstraction, automation, intelligence & optimization across the chain.

Deployment Speed
- 1 hr onboarding for DesktopReady™ clients.
- 2 days onboarding for Enterprise DaaS Clients - to reduce further with additional automation planned.

Cost Transparency
- Simplified subscription-based pricing preferred by clients.
- Offers cost transparency and requires no or low IT intervention.

Security Best Practices
- Scalable, secure & compliant across environments of any size.

Rapid Scalability
- Remote delivery structure with ability to scale teams in an instant.
- Ability to quickly meet demand fluctuations.
