Panacea InfoSec has completed this engagement by evaluating policies, procedure, and applicable controls for compliance to the requirements of the HIPAA security rule of Anunta. Our engagement was performed in accordance with standard scope of work (SOW) of HIPAA compliance for Anunta henceforth referred as "Anunta".

The engagement was focused on identifying the effectiveness of security controls implemented at Anunta to ensure compliance as per HIPAA security requirements based on policies, structure and design of control activities enacted at the time of our engagement. In addition, our review included validation of policies and procedure for the facilities on sampling. The purpose of our engagement was to understand the design and effectiveness of Anunta's controls and procedures relevant to HIPAA security rule.

Our detailed HIPAA security requirement compliance reporting is followed in HIPAA Security Compliance Assessment Workbook of the detailed report. The report has been prepared based upon information provided and demonstrated by the Anunta team during the assessment and interactions. The assessment summary is based on sampling. Anunta agrees to hold us harmless and indemnify us against any claims, damages, proceedings, charges or other liabilities resulting from, or arising out of, our representations here in the preparation of the report.

We appreciate the cooperation and assistance provided to us by **Anunta Technology Management Services Limited (Anunta)** during engagement wherein we observed the overall status of Anunta as **"Satisfactory"** on the basis of HIPAA security rule. The next assessment is due on 10 April 2027 or immediate action is required in case of any significant changes in infrastructure or business environments (related to HIPAA) of Anunta.
